

## Recommendation from Stanley's Parents

Stanley & Wayne together

Hi!

We have known Nicola and Wayne as good friends and neighbours for 18 years.

We are both avid dog lovers and walked our pets for many years together. Sadly, Nicola and Wayne lost their dog Saba a couple of years ago. They have spent quite a lot of time with our family pets over the years. They are proud house owners and have created a lovely garden and environment for pets to feel comfortable and relaxed.

Over the years, Nicola has walked neighbours dogs at different times as favours or just to have some pet company. Stanley has been on many walks with Nicola and absolutely adores her and Wayne!

Recently Nicola and Wayne were out walking their Labrador clients and Stanley looked horrified that they had acquired new walking companions. We were both highly amused at his reaction.

They have also attended to feeding neighbours cats, and for extended periods looked after neighbours' chickens (up to 6 months) at a time. They are very caring and responsible neighbours and pet lovers and always obliging to help an animal in need. We are a very close knit neighbourhood and I am sure that all of the neighbours would agree that your pet would be in the very best of care.

My sister has also called upon Nicola and Wayne to care for their dog on occasions, which was a rescue dog with a complex nature. Bella has welcomed Nicola and Wayne into her yard on many of occasions and is very affectionate towards them both.

Additionally, Nicola and Wayne and have had access to our house whilst we have taken extended holidays. They are very trustworthy friends and neighbours. I am sure that your pets will enjoy their company.

I would be delighted to speak further on their behalf if you have any further need to verify their character or pet services.
